

SUPPLEMENTAL NARRATIVE FOR CAPTAIN PETER J CHABOT

Ref: 21RIX1-1408-OF

On September 7, 2021, at approximately 3:00 PM, I responded to Governor McKee's Office at the Rhode Island State House in order to seize the state issued cell phone of Anthony Silva, the previous Chief of Staff. Upon arrival, I was met by Tabatha Dube, Special Assistant to the Chief of Staff. Ms. Dube was aware on why I was there and provided me with Mr. Silva's cell phone and computer that was issued to him. Ms. Dube also provided me with the passwords for both. After taking possession of these items, I advised Ms. Dube that I provide her with a receipt for both items upon my return to Headquarters.

After clearing the State House, I responded directly to the Computer Crimes Unit where the cell phone and computer were logged in as evidence. After documenting the seizure of the cell phone and computer on a Rhode Island State Police Computer Crimes Unit Evidence Recovery Log, Lt. Yelle e-mailed this form to Ms. Dube as a receipt of the seizure.

Although the cell phone and computer are property of the State of Rhode Island and a search warrant is not needed, to air on the side of caution, and prior to members of the Computer Crimes Unit searching the cell phone or computer, on September 8, 2021, I requested Ms. Dube provide me with the User Agreement Mr. Silva signed when issued the devices. In response to this request, Ms. Dube indicated she would retrieve this document and send it to me.
