Me

The decision was made by compiling scores. There is a Technical review and a cost review. I can get you the write-up, of which I received a hard copy. It was prepared by Dan Majcher.

Hi Jim  
 Thanks for your time today .  
 After reading the memo a few things stick out .

1. The description of the project in the header only represents k-12 and higher Ed .....it does not even mention municipal education departments .....and does not mention anywhere that the consulting team selected would be directly accountable to the Governor's office . It looks like the review team thinks the consultant would be working with RIDE and not my office . This is a problem .

2. The only reference to municipal education departments in the entire memo is in the ILO summaries . This is the most important part of the entire project

3. The cost analysis is flawed This is the last cost structure by WestEd with a project with RIDE .....there is not one position that is even close to the average \$123 that WestEd is quoting .....we are obviously not

getting there very best staff.....we will be assigned low level entry level staff to address a complicated never before done education project

4. The WestEd section on work plan does not mention Municipal Education Departments .....most likely because they as well as most education experts have no idea what I am trying to do

Let's talk before any notices are sent out

Thanks for your help

Dan
