Good Morning!

Writing in regard to Agenda Item #6 noted for the September 17, 2026 about discussion and possible vote on the need to post any written comments received by the Commission. Believe this is a redundant item as the Freedom of Information Act requires copies these communications to be made publicly available upon request.

Save the taxpayers money and time in requesting these individually after the fact and make them immediately available as supporting documentation to all of your standard meeting agendas, notes and records and publish them on an accessible website them with these records.

You don't need to waste time in having a discussion and vote about what is already clearly required by law.

Thank you for your time and please feel welcome to include this with your packet.

Cheers,

Carol Fritz
