

Inspector General Independent Advisory Commission
September 17, 2026

As a taxpayer, I urge the Commission to Prioritize Candidates like David Harper or Mark Priebe because their Experience with massive federal oversight bodies equips them with the Structural Independence needed to Resist local political Networks. We need a watch dog who operates outside of our established State House circles. Given Rhode Island's History with municipal procurement fraud and localized pay to play Schemes,

The Commission Should Favor a finalist like Stuart Robinson or Steven Kreuger. I know Dan McKee won't like any of them along with some of our states' finest "alleged" thieves. I've done my homework their backgrounds deals directly with city level public corruption and are a true match for tracking how tax payers state and municipal dollars are spent here because in the last three years the cost of living has been unbearable. I have

been a Victim of This City and State level public Corruption and to date I have spent over 10 years Fighting it and No one From the States Attorney Generals office, From the Governors office who can Accutally Stop what is going on to me, From the Ethics Board has yet to Step It up and Secure a Commitment to Absolute public transparency. Even Now my Husband and I have been asking for (ADRA Request) From "RIAC" From a Injury He Received back on March 23, 24 2023 by the End of His Shift and to date No one

From any Agency we have complained to mentioned in this letter and on this Commission has secured public transparency for us to get that (APRA Request) and "RIAC" AS USAULY HAS GAINED PROFITS FROM THE TAXPAYERS OF THIS STATE USING THE AIRPORT but when Injured on their property there is NO Recourse to get paid for your Injuries or For an "APRA" Request in order to Hire an Attorney for your personal Injury Claims they make it so Impossible to make those Claims for Injury possible you Are Threatened

, Desgraded in Court by Judges,
Contempted of Court and Charged a fine
of money you dont and Cant afford
I have been place in Jail on a Contempted
of Court for Asking Judge Richard Raspaso
How I Can get my Husbands Incident Report
From "RiAC" Since I had Already Requested
an "Apra" and Nothing was Found I
Recently on Tuesday September 15, 2026
Show Cause hearing for Contempt of Court
for a Email that was not Sent to the
Jodge and Fined \$1000.00 While in
the next Court Room with the same

Court Case # KC-2026-0316 IN 4D

4B KENYON ET VS "RIAC" Was being dismissed

and granted by default because we were

IN Court Room 4D that was Scheduled

On the Same day one at 9:30am and

the other at 10:00am Judge Deaton

Whom after she was done Awarding

"RIAC" the motion to Dismiss by default

Came into Courtroom 4D with Judge Richard

Who then Kicked me out immediately.

The worst part is that the Motion

to Compel Arbitration was Filed on

KC-2026-0316 On August 31, 2026

Page 2

And Under (FAA) USC § 4, and RI Gen laws
10-3-4 which places A Automatic Stay
on the Case until it is determined
by the Contract and the Arbitration
and Also the Facts that I had a
90 day Federal Right to Sue that I
Had to Fully Exhaust All Administrative
Options before I could file for Arbitration
and this was pulled on me as a
Back Door paid by Someone to the
Judges to get rid of the Case
before Arbitration. Well its
Against the law And thus

IS why We Need Our First ^{Page 8}

Inspector General to Prioritize

Making ALL Audits and Investigative
Summaries Accessible to the Public

Even though as Advocated groups
like the ACLU and Common Cause

Do just that they do not investigate
ALL Investigative Complaints like
MINE that go From one AG's office
to Another without transparency.

I want my Comment to go on

Record AS this may be of a
Meaningful decision for the States

First Inspector General and
We cannot afford to make any
mistakes.
